

D11000687 S2100027

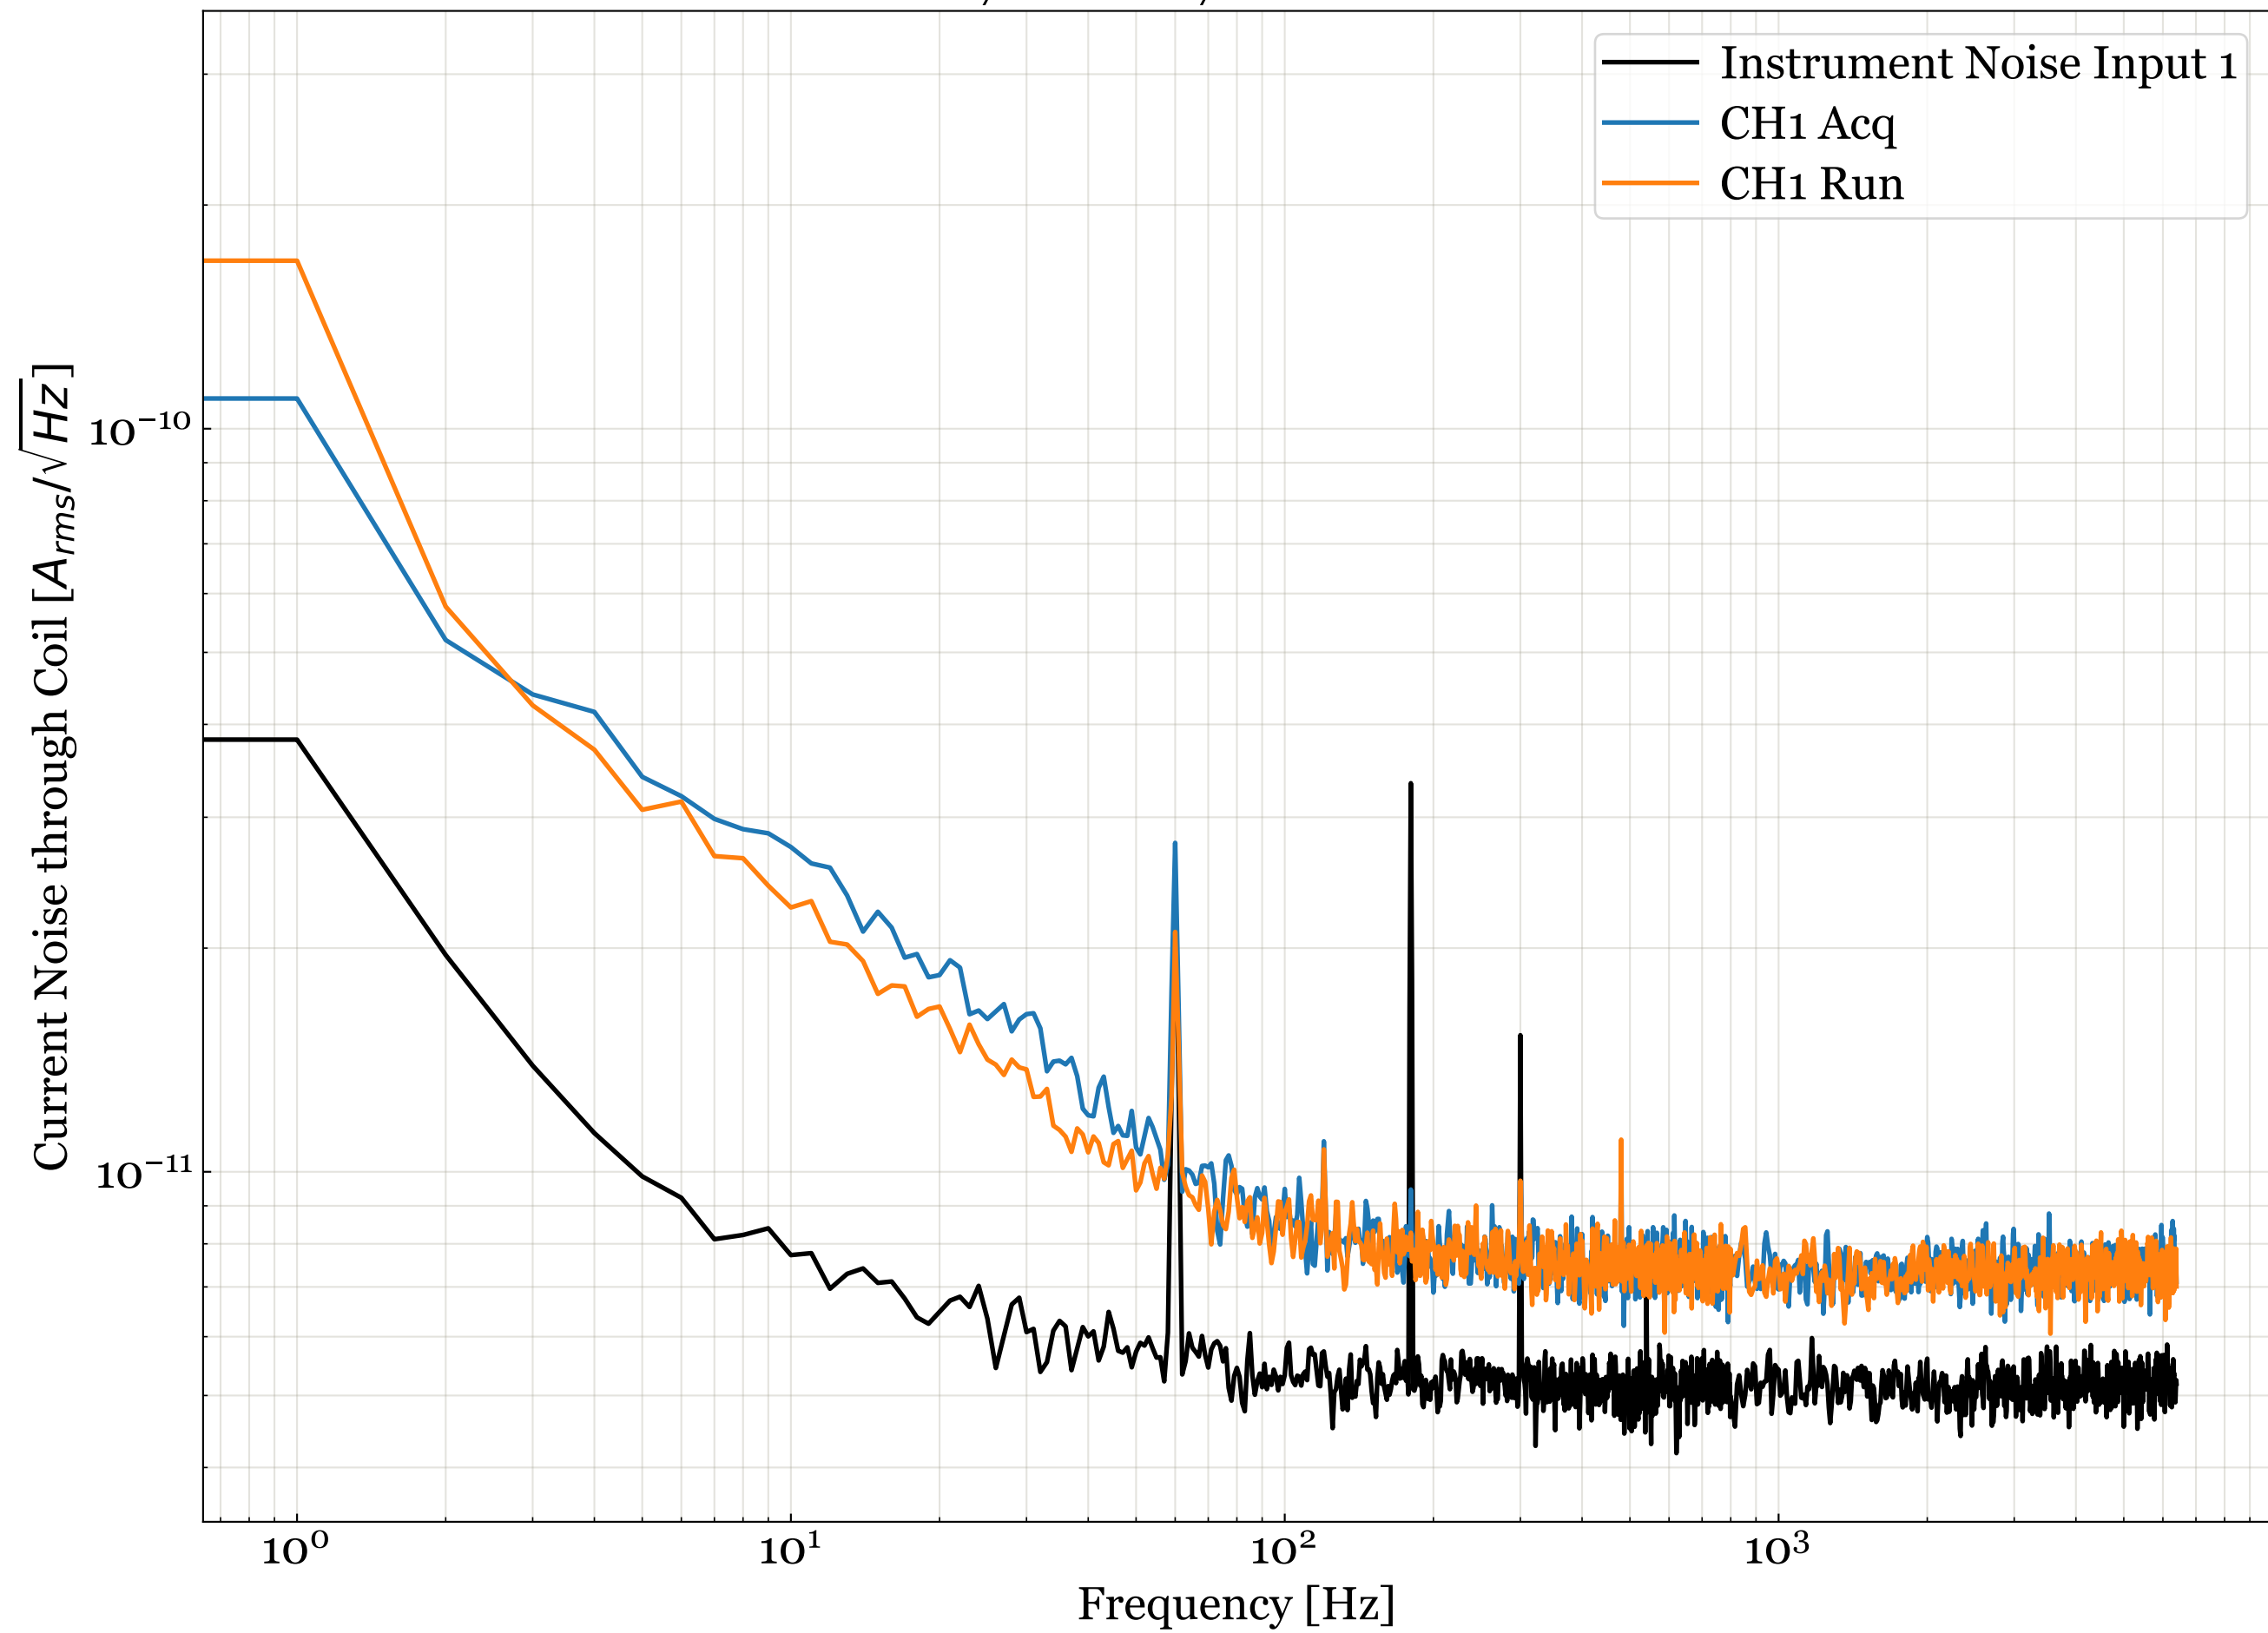

Current noise through coil calculated by dividing output monitor voltage noise by 2436.0Ohms.

W2 was shorted. P4 not shorted so inputs were grounded.

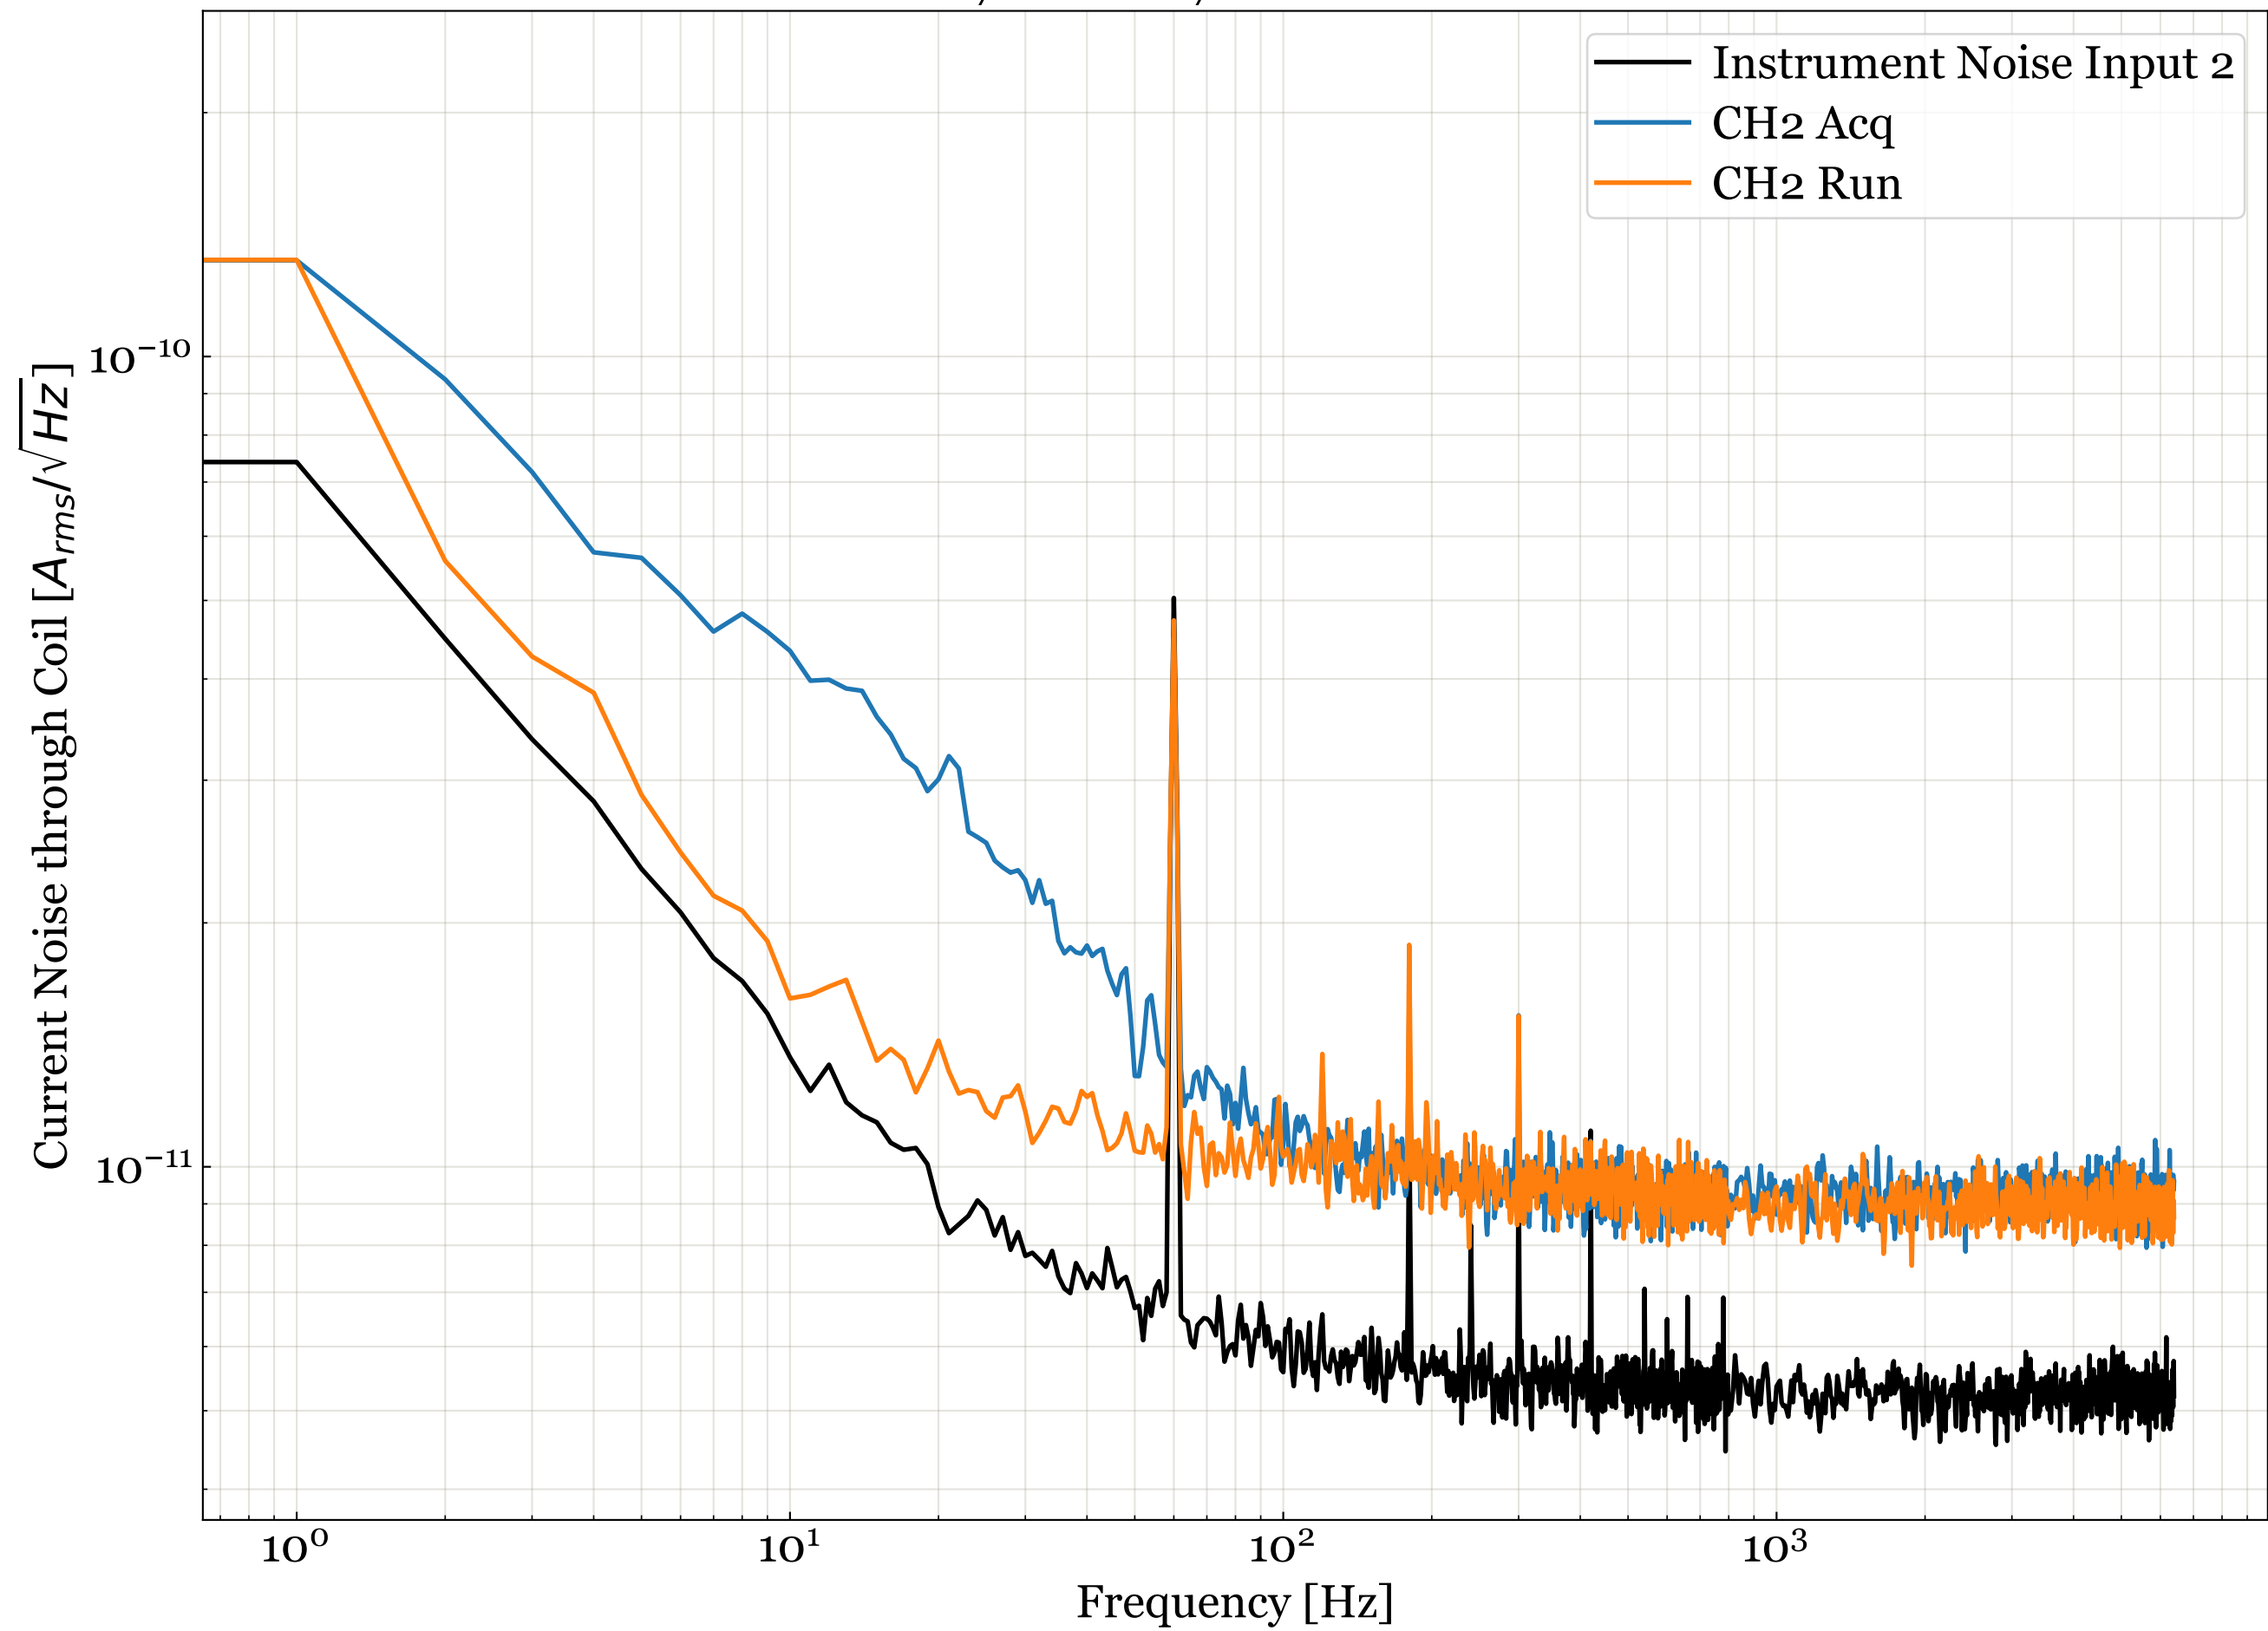

Run mode was activated by shorting header P3.

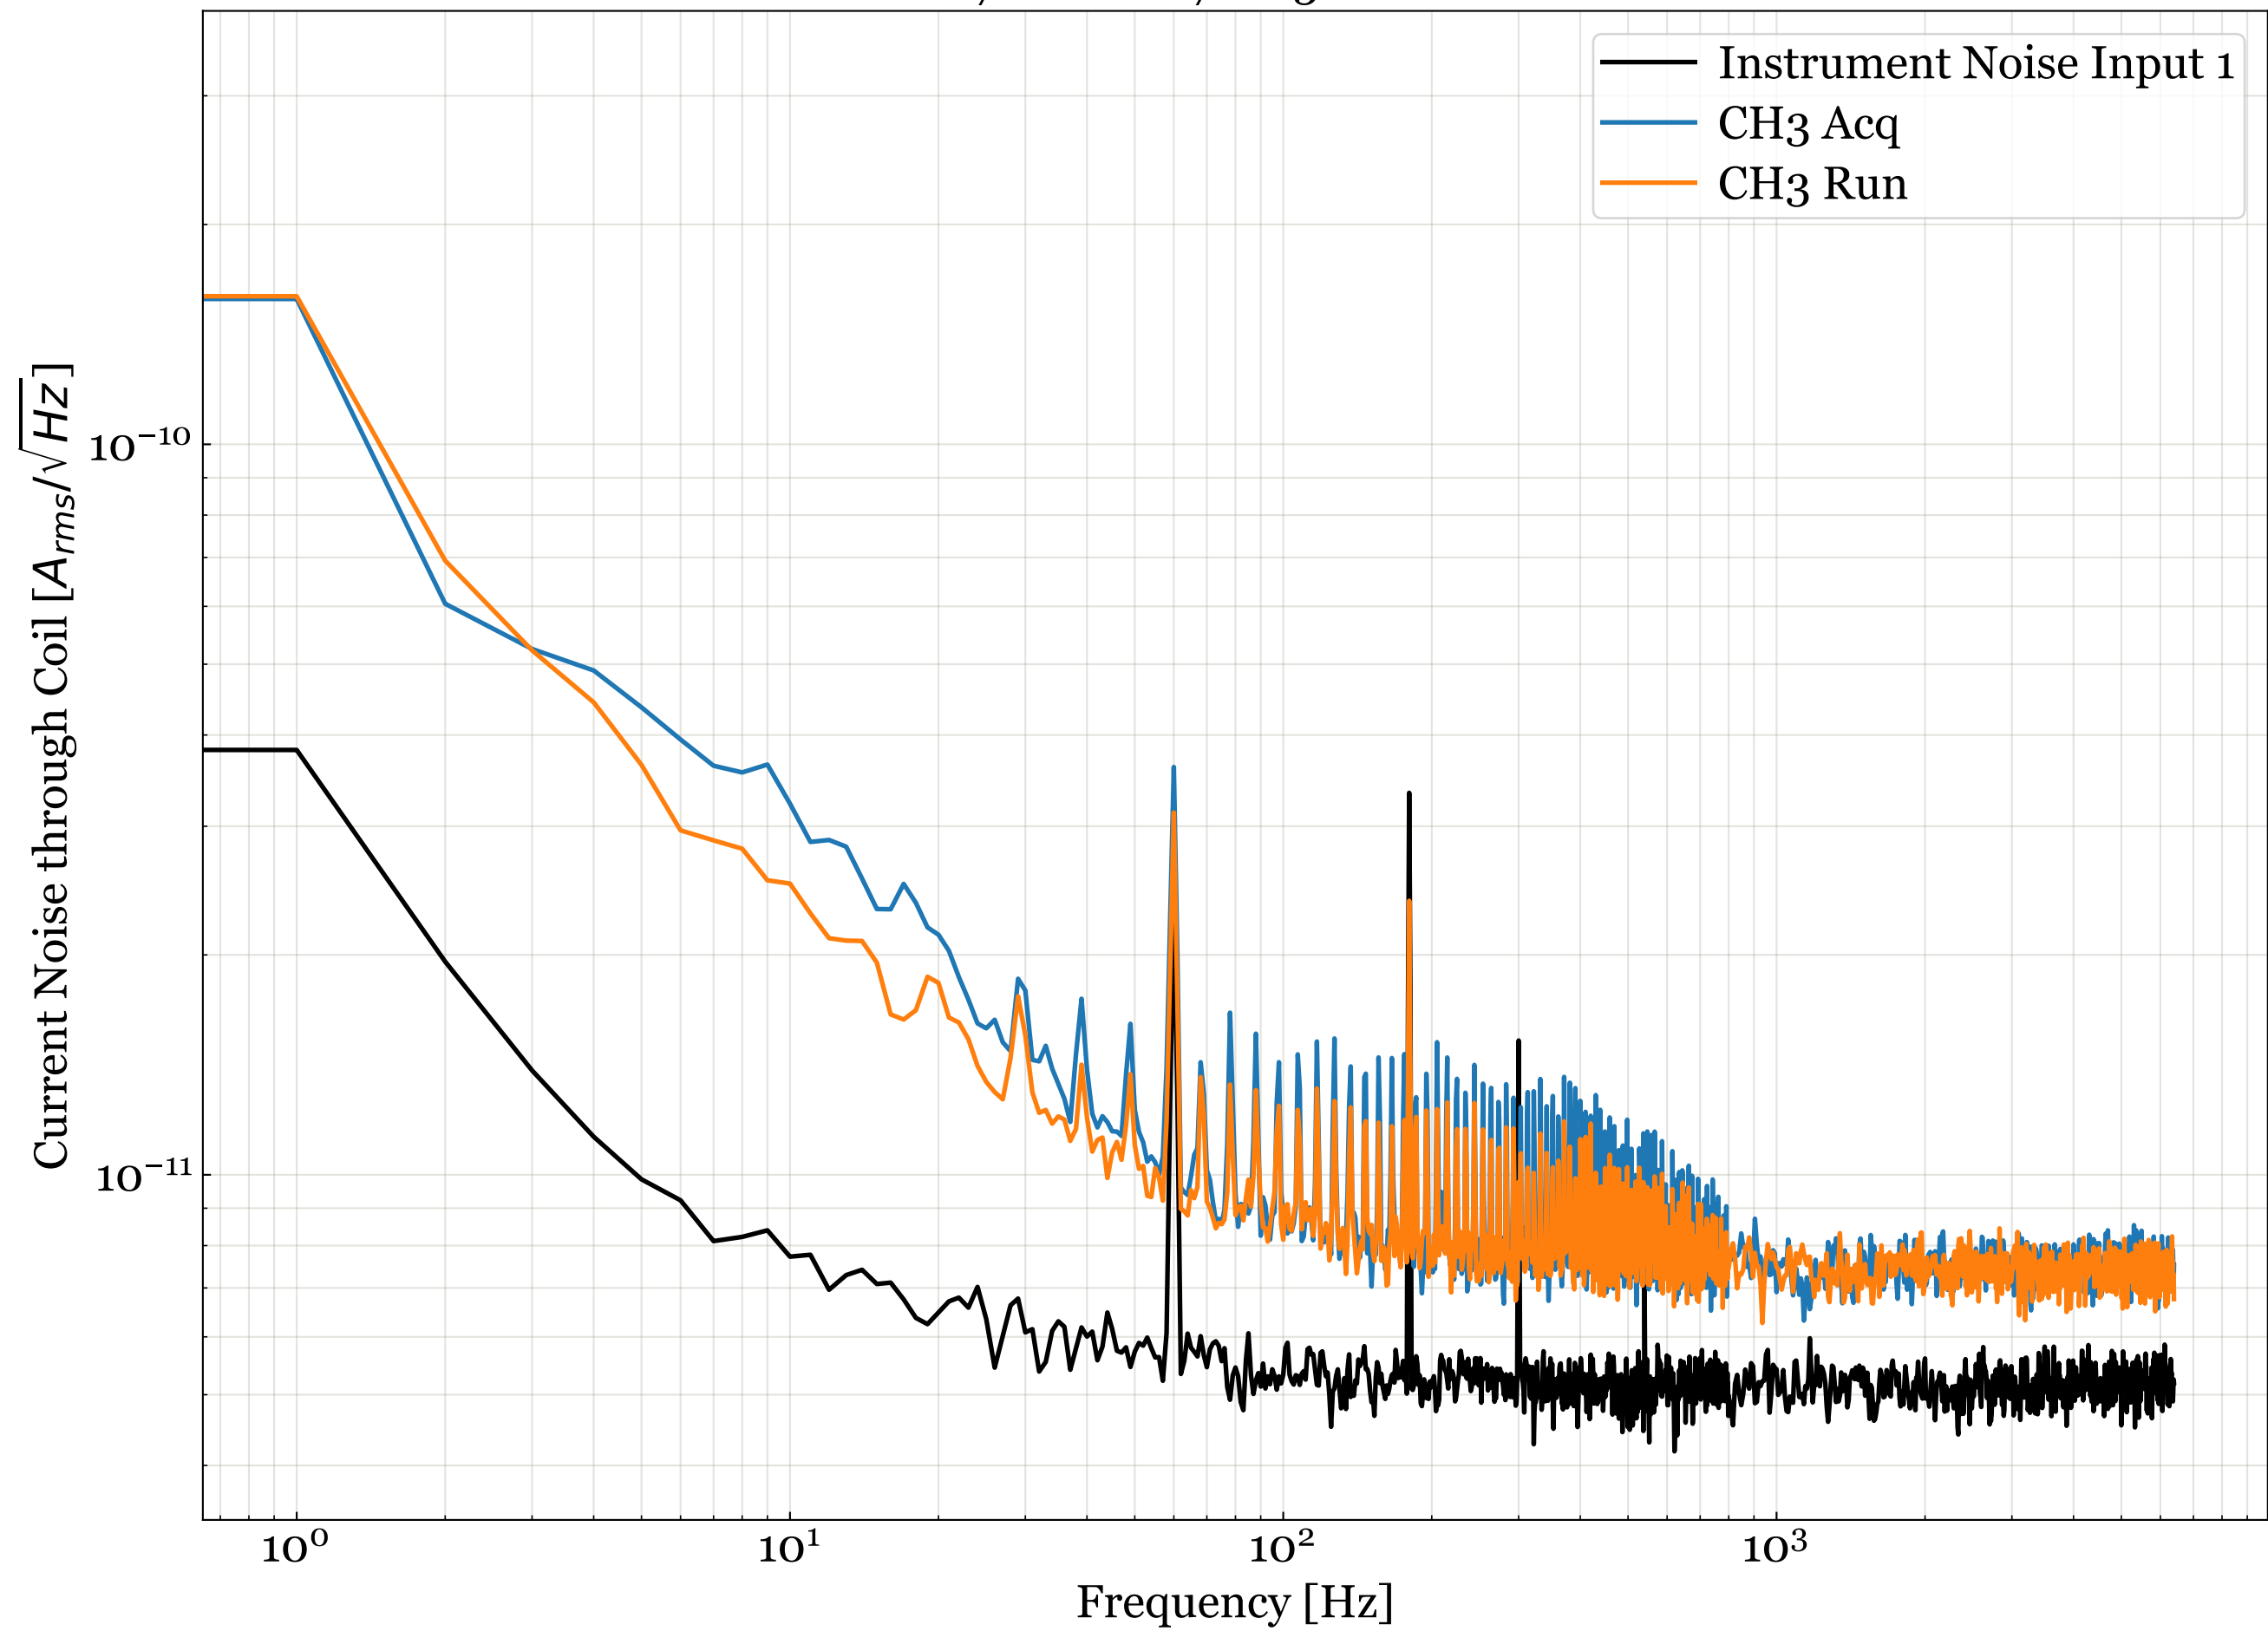

D11000687 S2100027 CH1 Coil Current Noise

D11000687 S2100027 CH2 Coil Current Noise

D11000687 S2100027 CH3 Coil Current Noise

D11000687 S2100027 CH₄ Coil Current Noise
