

D11000687 S2100028

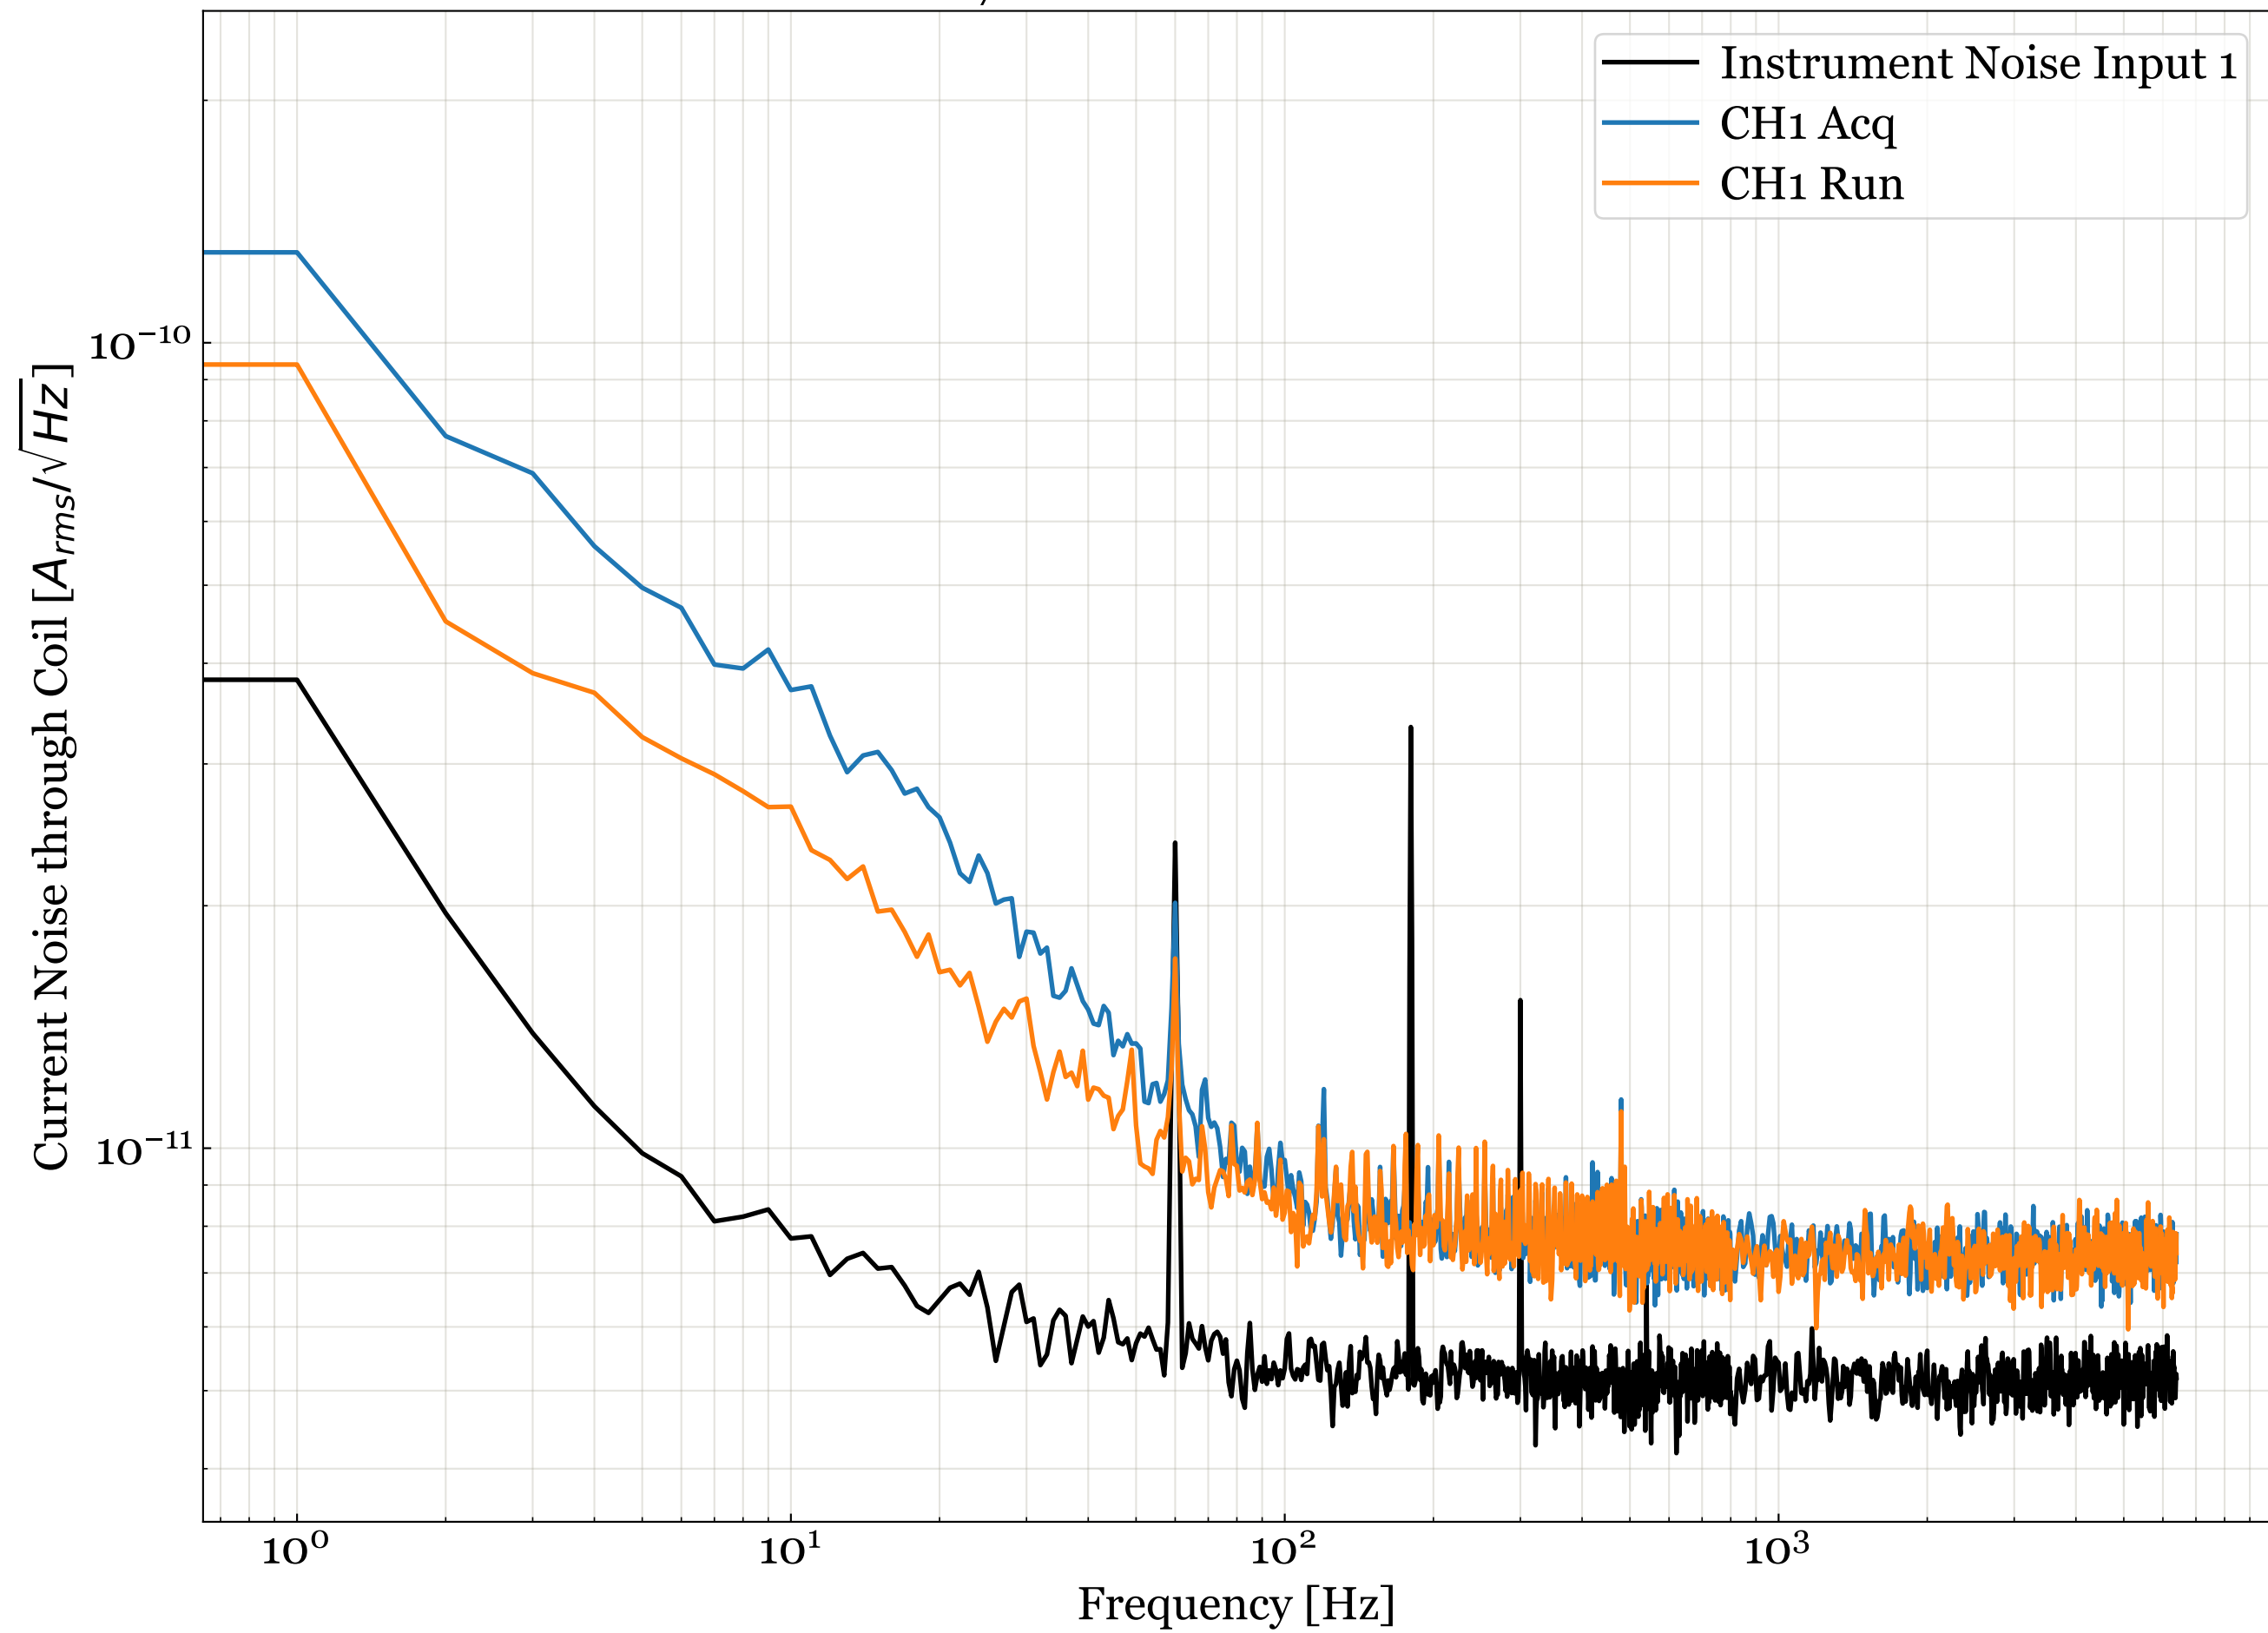

Current noise through coil calculated by dividing output monitor voltage noise by 2436.0Ohms.

W2 was shorted. P4 not shorted so inputs were grounded.

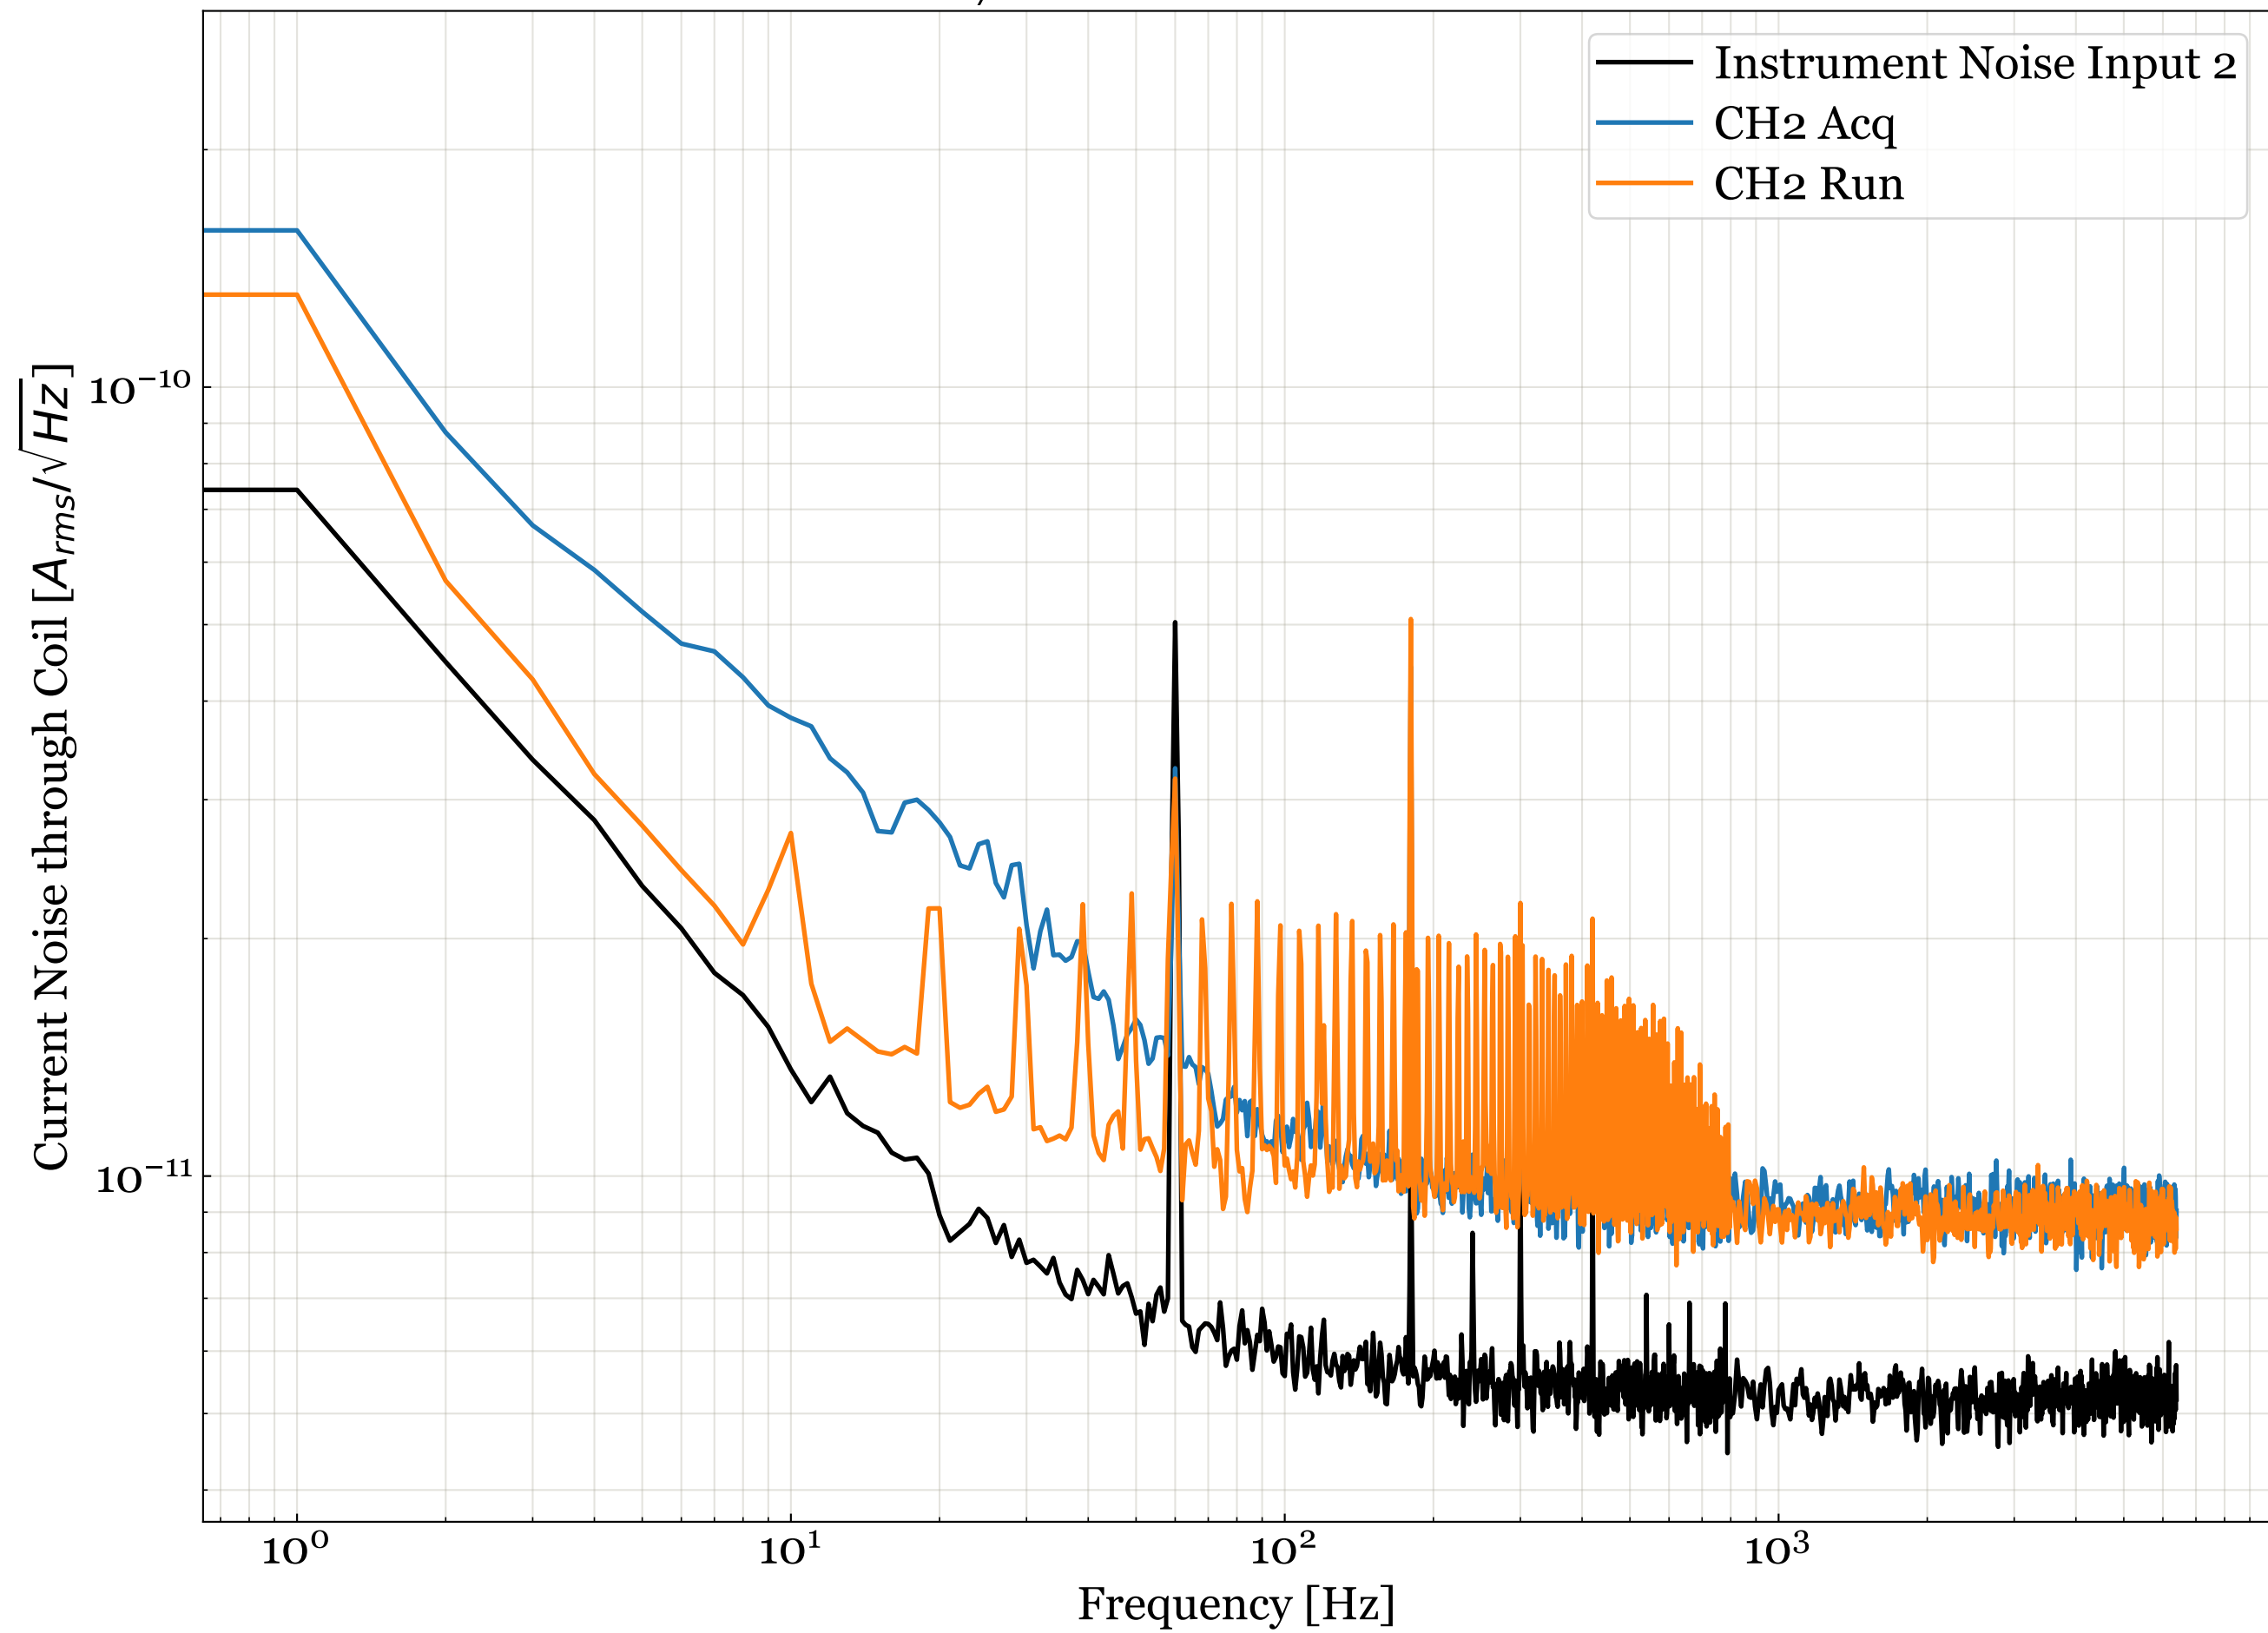

Run mode was activated by shorting header P3.

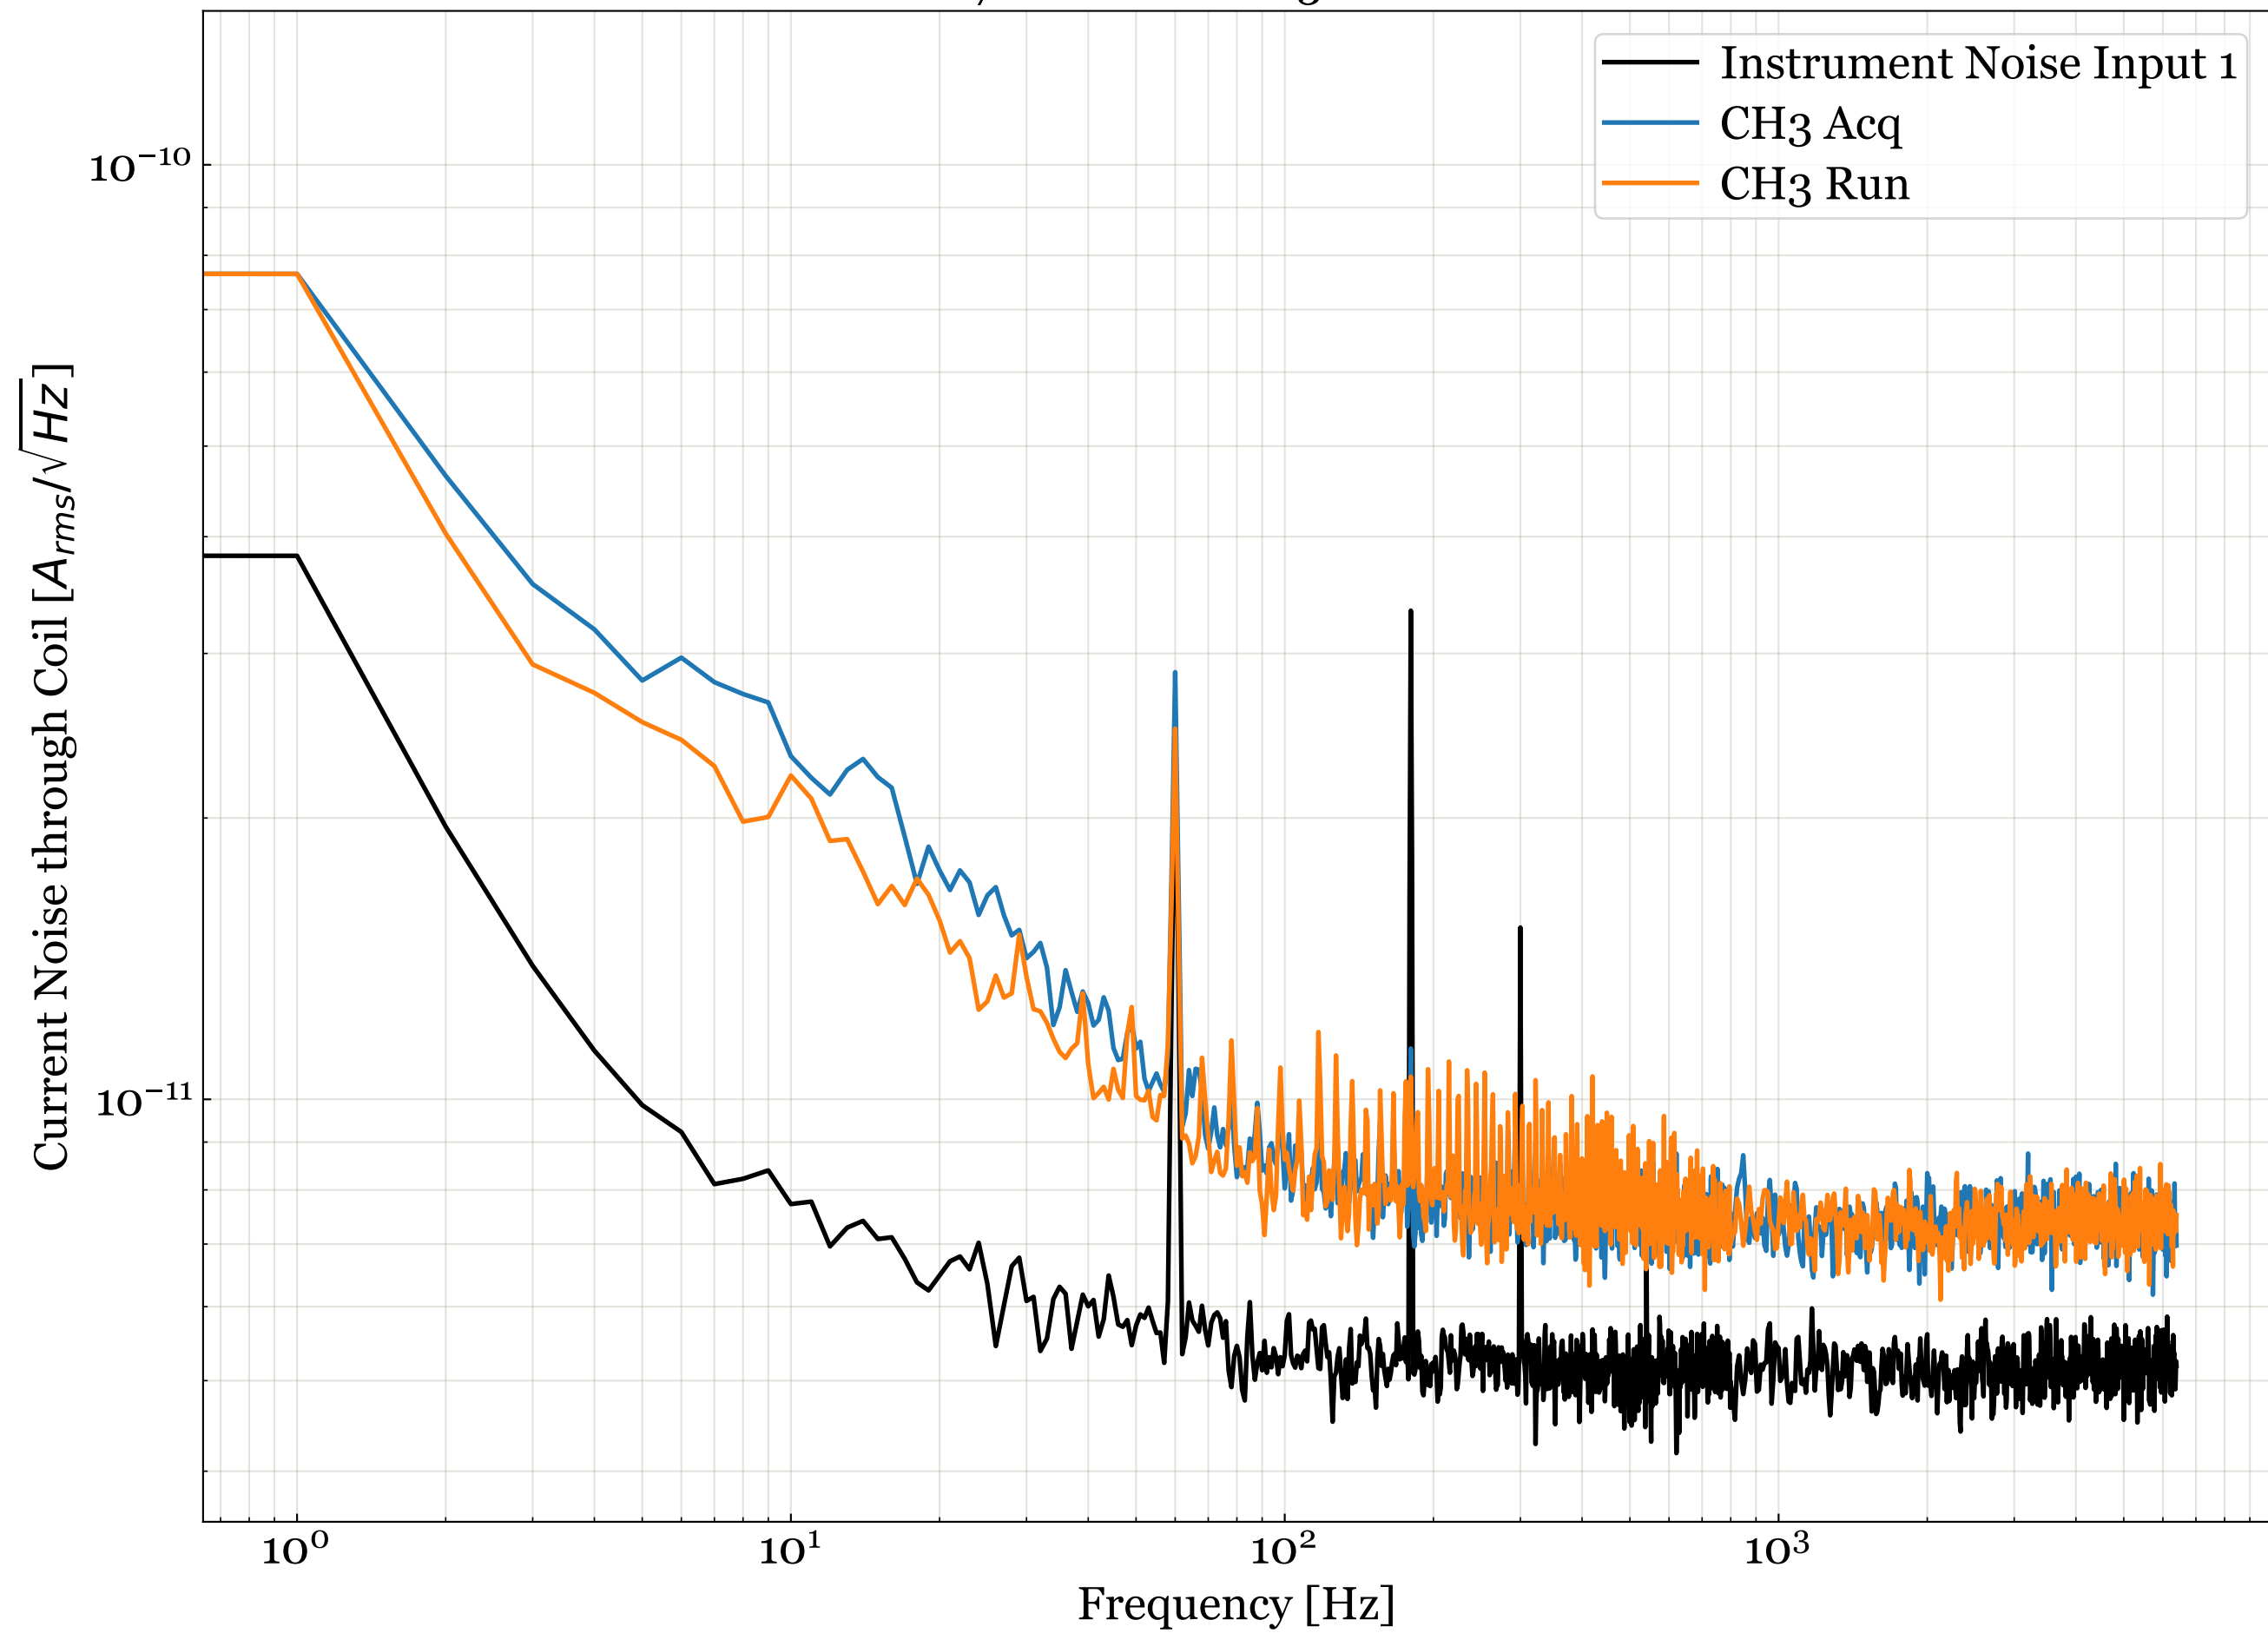

D11000687 S2100028 CH1 Coil Current Noise

D11000687 S2100028 CH2 Coil Current Noise

D11000687 S2100028 CH3 Coil Current Noise

D11000687 S2100028 CH4 Coil Current Noise
